As the chairman of Senior Common Room (SCR) - a leading social club for senior members of the University of Nairobi, I would like to welcome you to our website and of course, to the club. SCR members include University of Nairobi scholars, senior employees and associate members. The club provides members with quality and delicious food, traditional dishes, inexpensive drinks, a friendly atmosphere for reflection and relaxation, goat eating festivals and much more.

The business activities of SCR are the responsibility of an elected Management committee, comprising the chairman, Vice chairman, Secretary, Treasurer and 5 others. Elected annually by its membership, the committee makes day to day decisions on the business and welfare activities of the club. As the chairman, I have a variety of responsibilities including overseeing management meetings, influencing best practice and effective planning decisions, coordinate and ensure decisions are made for the overall benefit of SCR core business. I must say here too, that I have been luck to head a Management committee that is dedicated to taking the club forward. It is for this reason that I am proud to invite membership to the club.

[Dr Jared Maaka Siso](#) [8]
